

Let students capture their favorite parts of the year past and plan for the New Year! Students will fill in the worksheet. When they are done, the worksheet can be folded and sealed or placed into an envelope. Once sealed, students will write their names on the front. It is now ready to be stored away until the end of the year.

*These can be returned to students at the end of the school year, or it can be passed on to their next teacher to open after the next New Year!
