

Back-to-school supply lists made simple

Post and share in 5 easy steps!

STEP 1 Gather your district's supply lists for the upcoming school year.

Best practice: Collect them as early as possible to make sure parents can get them before school lets out. If your school supply lists stay the same every year, mark them "evergreen" and they will automatically renew each year.

It's free for schools and parents!

STEP 2 Upload your supply lists to TeacherLists.

Best practice: Become the TeacherLists admin for all of your lists. Assign an admin for each school in addition to a district-level admin for all lists.

Upload your lists using our [concierge service](#). We'll handle the rest.

STEP 3 Add your supply lists to your website so families can easily find them

Best practice: Request our integrated technology to easily embed your lists right onto your school or district website.

Supply lists can be translated into multiple languages!

STEP 4 Look for our email letting you know your lists are ready.

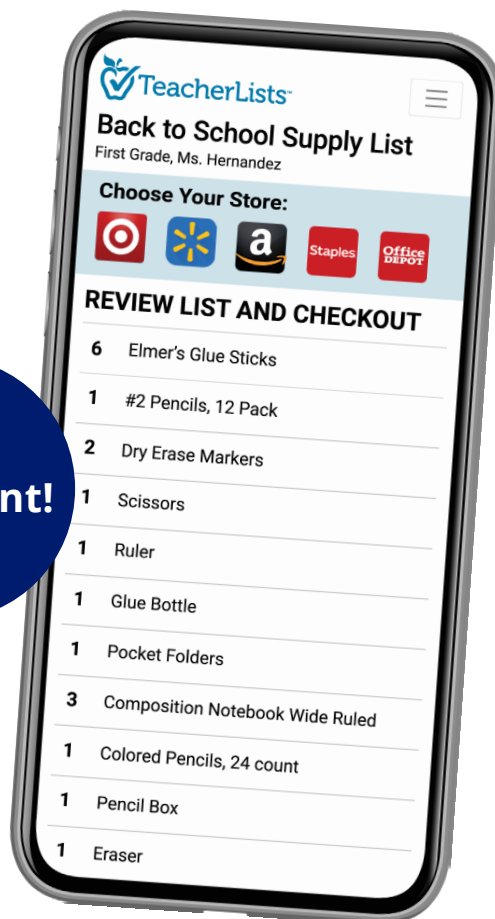

Best practice: Once your lists have been digitized, they'll be live on TeacherLists, Target, Walmart, and more! You can share an individual supply list, an entire school page, or a district page with a simple click. Our email will walk you through it.

STEP 5 Get the word out that your supply lists are ready!

Best practice: Share your TeacherLists supply list link with parents every two weeks via email, Facebook, X, Remind, or however you prefer to communicate with families.

ADA-compliant!
