

Help your whole school with just one click.

Help your school efficiently manage and share supply lists and wish lists with TeacherLists. By bringing the online power of TeacherLists to your school, you'll make back-to-school work smarter and better for everyone, at no cost.

With TeacherLists, everyone benefits.

School office staff can quickly upload lists with one click using the new online Power Loader, and effortlessly manage and update lists from year to year with just a click – no more gathering lists, updating your website, and sending them to retailers and parents. TeacherLists does it all for you!

Teachers can easily update their own lists with just a click and get exclusive access to free supply giveaways and coupons. Teachers can also use TeacherLists to manage and share their wish lists, allowing them to easily track in real time any items that parents have pledged to purchase.

Parents always have immediate access to your school's most current lists, wherever they are – on their smart phones, on your school website, on TeacherLists.com, even online and in-stores at major national retailers. No more downloading PDFs or lost lists!

The TeacherLists team is available to help you.

You can reach them at tlsupport@teacherlists.com or 800-644-3561 x 6.

How you can help:

- Tell your principal and school secretary about the TeacherLists solution – they'll be glad you did!
- Manage TeacherLists for your school – it's an easy way for your group to help without spending any money.
